Literacy Strategy Videos

Content area literacy strategy videos have been posted to the TeacherTube.com website. Before watching any of the strategy videos, it is important to view *Introduction to Literacy Strategies* in which Dr. William Brozo, national literacy consultant, outlines the importance of the use of literacy strategies by all teachers. Most videos have been subdivided because of TeacherTube's restrictions on file size. **It is important that all parts of a video be viewed in the indicated numerical order to obtain a complete understanding of the implementation of a strategy.**
